Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-119 and 125-232, drawn to I/O ports or components in a receiver, classified in class 725, subclass 151.
- II. Claims 120-124 and 233-243 drawn to a media player diverse device, classified in class 725, subclass 141.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because a A/V player/recorder does not require I/O ports as claimed. The subcombination has separate utility such as I/O ports for a receiver.
